CONTENTS

Dynamics of partial wetting
F. Brochard-Wyart and P.G. de Gennes (Paris, France) 1
Penetration and displacement in capillary systems of limited size
A. Marmur (Haifa, Israel) 13
Disturbed triple line behaviour and its use in surface analysis
M.E.R. Shanahan (Evry, France) 35
Hydrodynamic fingering instability of driven wetting films
A.M. Cazabat, F. Heslot, P. Carles and S.M. Troian (Paris, France) 61
Dynamics of contact lines in foam films
I.B. Ivanov, P.A. Kralchevsky, A.S. Dimitrov and A.D. Nikolov (Sofia, Bulgaria) 77
Equilibrium "wetting" of surfaces by membrane-covered vesicles
E. Evans (Vancouver, B.C., Canada) 103
Experiments on spreading droplets and thin films
F. Heslot, A.M. Cazabat, N. Fraysse and P. Levinson (Paris, France) 129
Equilibrium and hysteresis contact angles
V.M. Starov (Moscow, Russia) 147
Mixed alkanethiol monolayers on gold surfaces: wetting and stability studies
A. Ulman, S.D. Evans, Y. Shnidman, R. Sharma and J.E. Eilers (Rochester, NY, USA) 175
Contact angles of water–2-butoxyethanol system against glass. Exploration of the phase diagram
J.M. Douillard, E. Tronel-Peyroz, R. Bennes and M. Privat (Montpellier, France) 225
Dynamic contact angles: temperature dependence and the influence of the state of the adsorption film
E.V. Gribanova (St. Petersburg, Russia) 235
Solid/fluid interfacial tensions from contact angles: corroboration by independent approaches
E. Moy and D. Li (Toronto, Ont., Canada) 257
Equation of state for interfacial tensions of solid–liquid systems
D. Li and A.W. Neumann (Toronto, Ont., Canada) 299
Contact angle measurement by axisymmetric drop shape analysis (ADSA)
D. Li, P. Cheng and A.W. Neumann (Toronto, Ont., Canada) 347
Contact angles on metal and polymer surfaces in mass transfer environments
A.B. Ponter (Lafayette, LA, USA) 383
The drainage of an aqueous film between a solid plane and an air bubble
L.R. Fisher (North Ryde, N.S.W., Australia), D. Hewitt (Adelaide, S.A., Australia), E.E. Mitchell (North Ryde, N.S.W. Australia), J. Ralston (Adelaide, S.A., Australia) and J. Wolfe (Kensington, N.S.W., Australia) 397
